INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

(Chapter II of the Patent Cooperation Treaty)

(PCT Article 36 and Rule 70)

REC'D	0	1	DEC	2005	
WIDO				PCT	-

International application No. PCT/EP2004010613 22.09.2004 23.10.2003 International Patent Classification (IPC) or national classification and IPC HO4M1/725, H04M1/247 Applicant Applicant Applicant International Patent Classification (IPC) or national classification and IPC This report is the international preliminary examination report, established by this international Preliminary Examining Authority under Article 35 and transmitted to the applicant according to Article 36. This report is also accompanied by ANNEXES, comprising: Sent to the applicant and to the International Bureauy a total of 3 sheets, as follows: sheets of the description, claims andfor drawings which have been amended and are the basis of this report and/or sheets containing rectifications authorized by this Authority (see Rule 70.16 and Section 607 of the Administrative Instructions). sheets which supersade earlier sheets, but which this Authority considers contain an amendment that goes beyond the disclosure in the international application as filed, as indicated in item 4 of 8ox No. 1 and the Supplemental Box. sent to the International Bureau only) a total of (Indicate type and riumber of electronic carrier(s)), containing a sequence listing and/or tables related thereto, in computer readable form only, as indicated in the Supplemental Box Relating to Sequence Listing (see Section 802 of the Administrative Instructions). 4. This report contains indications relating to the following items: 8	Applicant's or agent's file reference PD53574PC	FOR FURTHER ACTION		See Form PCT/IPEA/416			
Applicant SONY ERICSSON MOBILE COMMUNICATIONS AB et al. 1. This report is the international preliminary examination report, established by this International Preliminary Examining Authority under Article 35 and transmitted to the applicant according to Article 35. 2. This REPORT consists of a total of 5 sheets, including this cover sheet. 3. This report is also accompanied by ANNEXES, comprising: a. ☑ sheets of the description, claims and/or drawings which have been amended and are the basis of this report and/or sheets containing rectifications authorized by this Authority (see Rule 70.16 and Section 607 of the Administrative Instructions). □ sheets which supersade earlier sheets, but which this Authority considers contain an amendment that goes beyond the disclosure in the international application as filed, as indicated in item 4 of Box No. 1 and the Supplemental Box. b. □ (sent to the International Bureau only) a total of (indicate type and number of electronic carrier(s)) , containing a sequence listing and/or tables related thereto, in computer readable form only, as indicated in the Supplemental Box Relating to Sequence Listing (see Section 802 of the Administrative Instructions). 4. This report contains indications relating to the following items: □ Box No. II Priority □ Box No. III Priority □ Box No. IV Lack of unity of invention □ Box No. VI Certain documents cited □ Box No. VI Certain documents cited □ Box No. VI Certain documents cited □ Box No. VII Certain defects in the international application □ Box No. VII Certain observations on the international application □ Date of submission of the demand □ Date of submission of the demand □ Date of completion of this report □ 11.2.2005 Name and mailing address of the International preliminary examining authority: □ European Patent Office - P.B. 5818 Patentiana 2	••	•	(day/month/year)				
SONY ERICSSON MOBILE COMMUNICATIONS AB et al. 1. This report is the international preliminary examination report, established by this International Preliminary Examining Authority under Article 35 and transmitted to the applicant according to Article 36. 2. This REPORT consists of a total of 5 sheets, including this cover sheet. 3. This report is also accompanied by ANNEXES, comprising: a. Sent to the applicant and to the International Bureau) a total of 3 sheets, as follows: 3. Sheets of the description, claims and/or drawings which have been amended and are the basis of this report and/or sheets containing rectifications authorized by this Authority (see Rule 70.16 and Section 607 of the Administrative Instructions). 4. Sheets which supersede earlier sheets, but which this Authority considers contain an amendment that goes beyond the disclosure in the international application as flied, as indicated in litem 4 of Box No. 1 and the Supplemental Box. 5. (sent to the International Bureau only) a total of (indicate type and number of electronic carrier(s)), containing a sequence listing and/or tables related thereto, in computer readable form only, as indicated in the Supplemental Box Relating to Sequence Listing (see Section 802 of the Administrative Instructions). 4. This report contains indications relating to the following items: 5. Box No. II Basis of the opinion 6. Box No. II Non-establishment of opinion with regard to novelty, inventive step and industrial applicability 6. Box No. V Leak of unity of invention 8. Box No. V Leak of unity of invention 8. Box No. V Certain documents cited 8. Box No. VIII Certain defects in the International application Date of submission of the demand Date of completion of this report 7. 2.005 Name and mailing address of the International preliminary examining authority: 8. European Patent Office - P.B. 5818 Patentian 2	·						
Authority under Article 35 and transmitted to the applicant according to Article 36. 2. This REPORT consists of a total of 5 sheets, including this cover sheet. 3. This report is also accompanied by ANNEXES, comprising: a. Sent to the applicant and to the International Bureau) a total of 3 sheets, as follows: Sheets of the description, claims and/or drawings which have been amended and are the basis of this report and/or sheets containing rectifications authorized by this Authority (see Rule 70.16 and Section 607 of the Administrative Instructions). I sheets which supersede earlier sheets, but which this Authority considers contain an amendment that goes beyond the disclosure in the international application as filed, as indicated in item 4 of Box No. I and the Supplemental Box. b. (sent to the International Bureau only) a total of (Indicate type and number of electronic carrier(s)) containing a sequence listing and/or tables related thereto, in computer readable form only, as indicated in the Supplemental Box Relating to Sequence Listing (see Section 802 of the Administrative Instructions). 4. This report contains indications relating to the following items: Box No. I Basis of the opinion Box No. II Priority Box No. II Non-establishment of opinion with regard to novelty, inventive step and industrial applicability Box No. V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement Box No. VII Certain defects in the international application Date of submission of the demand Date of completion of this report O1.12.2005 Name and mailing address of the International preliminary examining authority: European Patent Office - P.B. 5818 Patentian 2							
3. This report is also accompanied by ANNEXES, comprising: a. ☑ sent to the applicant and to the International Bureau) a total of 3 sheets, as follows: ☑ sheets of the description, claims and/or drawings which have been amended and are the basis of this report and/or sheets containing rectifications authorized by this Authority (see Rule 70.16 and Section 607 of the Administrative Instructions). □ sheets which supersede earlier sheets, but which this Authority considers contain an amendment that goes beyond the disclosure in the international application as filed, as indicated in item 4 of Box No. I and the Supplemental Box. b. □ (sent to the International Bureau only) a total of (Indicate type and number of electronic carrier(s)) , containing a sequence listing and/or tables related thereto, in computer readable form only, as indicated in the Supplemental Box Relating to Sequence Listing (see Section 802 of the Administrative Instructions). 4. This report contains indications relating to the following items: □ Box No. II Basis of the opinion □ Box No. III Non-establishment of opinion with regard to novelty, inventive step and industrial applicability □ Box No. IV Lack of unity of invention □ Box No. V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement □ Box No. VII Certain defects in the international application □ Box No. VIII Certain observations on the international application Date of submission of the demand Date of completion of this report 23.08.2005 Name and mailling address of the international prelliminary examining authority: □ European Patent Office - P.B. 5518 Patentian 2	This report is the international pre Authority under Article 35 and tran	liminary examination re	port, established by this t according to Article 36.	International Preliminary Examining			
a. Sent to the applicant and to the International Bureau) a total of 3 sheets, as follows: Sheets of the description, claims and/or drawings which have been amended and are the basis of this report and/or sheets containing rectifications authorized by this Authority (see Rule 70.16 and Section 607 of the Administrative Instructions). sheets which supersede earlier sheets, but which this Authority considers contain an amendment that goes beyond the disclosure in the international application as filed, as indicated in item 4 of Box No. I and the Supplemental Box. b. sheets which supersede earlier sheets, but which this Authority considers contain an amendment that goes beyond the disclosure in the international application as filed, as indicated in item 4 of Box No. I and the Supplemental Box. cleant to the International Bureau only) a total of (Indicate type and number of electronic carrier(s)), containing a sequence listing and/or tables related thereto, in computer readable form only, as indicated in the Supplemental Box Relating to Sequence Listing (see Section 802 of the Administrative Instructions). 4. This report contains indications relating to the following items: Box No. II Basis of the opinion Box No. III Non-establishment of opinion with regard to novelty, inventive step and industrial applicability Box No. IV Lack of unity of invention Box No. V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement Box No. VII Certain defects in the International application Date of submission of the demand Date of completion of this report 23.08.2005 Name and mailing address of the International preliminary examining authority: European Patent Office - P.B. 5818 Patentian 2	2. This REPORT consists of a total of	of 5 sheets, including th	nis cover sheet.				
sheets of the description, claims and/or drawings which have been amended and are the basis of this report and/or sheets containing rectifications authorized by this Authority (see Rule 70.16 and Section 607 of the Administrative Instructions). sheets which supersede earlier sheets, but which this Authority considers contain an amendment that goes beyond the disclosure in the international application as filed, as indicated in item 4 of Box No. I and the Supplemental Box. sheets which supersede earlier sheets, but which this Authority considers contain an amendment that goes beyond the disclosure in the international application as filed, as indicated in item 4 of Box No. I and the Supplemental Box. sheets which supersede earlier sheets, but which this Authority considers contain an amendment that goes beyond the disclosure in the international application for the International application in the Supplemental Box. sheets which superseded earlier sheets, but which this Authority considers contain an amendment that goes beyond the disclosure in the international application	3. This report is also accompanied b	y ANNEXES, comprisir	ng:				
and/or sheets containing rectifications authorized by this Authority (see Rule 70.16 and Section 607 of the Administrative Instructions). sheets which supersede earlier sheets, but which this Authority considers contain an amendment that goes beyond the disclosure in the international application as filed, as indicated in item 4 of Box No. I and the Supplemental Box. b. (sent to the International Bureau only) a total of (indicate type and number of electronic carrier(s)) , containing a sequence listing and/or tables related thereto, in computer readable form only, as indicated in the Supplemental Box Relating to Sequence Listing (see Section 802 of the Administrative Instructions). 4. This report contains indications relating to the following items: Box No. I Basis of the opinion Box No. II Priority Box No. III Non-establishment of opinion with regard to novelty, inventive step and industrial applicability Box No. IV Lack of unity of invention Box No. IV Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement Box No. VI Certain defects in the international application Box No. VII Certain observations on the international application Date of submission of the demand Date of completion of this report 23.08.2005 O1.12.2005 Name and malling address of the International preliminary examining authority: European Patent Office - P.B. 5818 Patentian 2	a. 🛛 sent to the applicant and to	o the International Bure	au) a total of 3 sheets,	as follows:

Re Item V

Reasoned statement with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. The present application does not meet the criteria of Article 33(1) PCT, because the subject-matter of independent method claim 1 and apparatus claim 6 is not new in the sense of Article 33(2) PCT.

The document D1 discloses (the references in parentheses applying to this document):

Device for preparing a message in an electronic communication device (fig.1, ref.30) comprising:

- a message type selection unit (fig.2, ref.10 and 280) providing a set of message types that can be selected by a user (SMS, e-mail, facsimile, etc., paragraph [44]),
- a first user input unit (fig.2, ref.10 and 280, paragraph [44]), for allowing message type selection by the user, and
- a control unit (fig.1, ref.40) arranged to provide the set of items of message types that can be selected by a user in an editor having a format common for all messages types (paragraph [36], [41], fig.1 and 2, ref.10 and 280), detect a message selection by a user via said first user input unit, change the transmission format in dependance of the selections made by the user (paragraph [44]) which provides preparing and saving a message in advance of deciding final message type for transmission thereof (a pad, fig.1 and 2, ref.10, is used as common editor for any kind of messages, wherein inputted messages can be saved and displayed, paragraph [42], before selecting the transmission format, paragraph [44]).

The subject-matter of independent apparatus claim 6 and corresponding independent

International application No.

INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY (SEPARATE SHEET)

PCT/EP2004/010613

method claim 1 is therefore not new (Article 33(2) EPC).

- Dependent claims 2-5, 7-16 do not contain any features which, in combination with the features of any claim to which they refer, meet the requirements of the PCT in respect of novelty and/or inventive step, see documents D1-D3 and the corresponding passages cited in the search report.
- 3. The subject-matter of claims 1-16 relates to a method and a device for preparing an electronic message and has an industrial application.

CLAIMS

- 1. Method of preparing a message in an electronic communication device comprising the steps of:
 providing a set of message types (20, 22, 24, 26) that can be selected by a user in an editor common for all message types, (step 100), detecting a message type selection for a user, (step 102, 106), and changing transmission format in dependence of the selections made by the user, (step 108), which provides preparing and saving a message in advance of deciding final message type for transmission or saving thereof.
- 2. Method according to claim 1, further comprising the step (step 110) of showing the message, typically on an information presentation unit (14), in a format corresponding with the selected message type (20, 22, 24, 26).
- 3. Method according to claim 1, wherein a first user input unit (32) allows actuation for (step 102) and scrolling (step 104) in a first direction and a second opposite direction, wherein the detection (step 106) of a selection by an actuation (step 102) and confirmation (step 106) of the first user input unit (32) for one direction provides selection of a message type and the detection of a selection provides changing the transmission format in dependence of the selections made by the user (step 108).
- 4. Method according to any previous claim, further comprising the step of saving a message (step 110).
- Method according to claims 4, wherein the step of saving (step 110) is performed in a general format.
- 6. Device (10) for preparing a message in an electronic communication device comprising:
 - a message type selection-unit (14) providing a set of message types (20, 22, 24,.... 26, 28) that can be selected by a user,
 - a first user input unit (32), for allowing message type selection by the user, and a control unit (40) arranged to:
 - provide the set of items of message types (20, 22, 24, 26) that can be selected by a user in an editor having a format common for all message types, detect a message selection by a user via said first user input unit (32),

change the transmission format in dependence of the selections made by the user which provides preparing and saving a message in advance of deciding final message type for transmission or saving thereof.

- 7. Device according to claim 6, wherein the first user input unit (32) allows actuation for and scrolling in a first direction and a second opposite direction, and a second user input unit (34) is arranged to confirm a selection, wherein the detection of a selection by an actuation of the first user input unit (32) for one direction to an item (20, 22, 24, 26) and confirmation by the second user input unit (34) provides selection of a message type (20, 22, 24, 26) and the detection of a selection provides changing the transmission format (20, 22, 24, 26) in dependence of the selections made by the user.
- 8. Device according to claim 6 or 7, wherein the control unit (40) is arranged to change the appearance on an information presentation unit (14) in dependence of the selections made by the user.
- 9. Device according to any one of the claims 6-8, further comprising a store (30) selectable by a user for storing a message and wherein the control unit (40) is further arranged to save a message in the store (30) in a general format
- 10. Device according to claim 9, wherein the control unit (40) is arranged to automatically save the message in the store (40).
- 11. Device according to any one of the claims 6-10, wherein the control unit (40) is arranged to upload the message to a predefined web address.
- 12. Device according to claim 11, wherein the control unit (40) is arranged to upload the message to a predefined web address with automated log-in.
- 13. Device according to claim 11, wherein the control unit (40) is arranged to upload the message to a predefined web address without automated log-in.
- 14. Device according to any one of the claims 6-13, wherein irrelevant tools is arranged not to be selectable so that a user can continue to edit in the format selected only.
- 15. Device (10) according to any of the previous claims, wherein the device (10) is a portable electronic communication device.

16. Device according to claim 15, wherein the device (10) is a cellular phone, a PDA or a smart-phone.
